

Seeds of Solidarity Farm Garlic!

Our self-serve farmstand at 165 Chestnut Hill Road, Orange, will be stocked starting Sept 12th, and available every day, daylight hours (**cash or check payable**). Some will sell out but there will be something wonderful for you! Sorry, we do not do on-line sales, mail order or bulk. Pick some up for friends! Many seed companies (Johnnys, Fedco, Hudson Seeds) are already sold out of seed garlic. We have both single variety packs and our popular mixed specialty packs.

Seed Garlic Varieties:

Our select hardneck varieties all perform great in the Northeast climate. Hardnecks produce an edible flower scape come June. \$15 per pack of 4 single variety seed bulbs with planting instructions.

Chamisal Wild: A rare and wonderful variety from New Mexico with great color and robust flavor

Georgian Crystal: large bulbs with fewer cloves, gorgeous shape and full-bodied flavor

Spanish Roja: A rosy bulb that is full-bodied and complex

German White (also known as German Extra Hardy): Consistently large in the field, crisp and spicy

Russian Red: Strong flavor with a pleasing aftertaste

Music: Impressive plant and bulbs with a mild and slightly sweet taste

Korean Red: Very reliable in the field that with balanced spiciness

Chesnok Red: Wonderful full flavor with a mellow aftertaste

Ukrainian Red: A good standard with rich flavor and nice heat.

Metechi: Vibrant flavor with good storage

Transylvanian: Our only **Softneck variety** while they last! Shapely bulbs with great flavor and long storage. Note: these will not make a garlic scape come June, and leaves will wilt and be harder to find pre-harvest, so harvest before hardneck varieties.
